Performance data quoted represents past performance; past performance does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance since the above time period may be lower or higher than the performance quoted. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

As of the Fund's Prospectus dated 1-31-19, the annual operating expense ratio is 0.80% for FMIHX and 0.66% for FMIQX.

Risks associated with investing in the Fund are: Stock Market Risk, Medium and Large Capitalization Companies Risk, Non-Diversification Risk (Non-Diversified funds are subject to higher volatility than funds that are invested more broadly), Value Investing Risk, Foreign Securities Risk (fluctuation of currency, different financial standards, and political instability) and Liquidity Risk.
