Shares	Value
129,521,563	\$ 129,521,563
	129,521,563
	2,193,224,563
	(464,488)
	\$2,192,760,075
	129,521,563

Percentages are stated as a percent of net assets.

PLC - Public Limited Company

<sup>(a)</sup> Non-income producing security.

<sup>(b)</sup> The rate shown represents the 7-day annualized effective yield as of September 30, 2024.

<sup>(c)</sup> Represents less than 0.05% of net assets.

#### Summary of Fair Value Exposure at September 30, 2024

The Fund has adopted fair valuation accounting standards that establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs used to develop the measurements of fair value. The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 -Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity can access at the measurement date.

Level 2 — Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 — Unobservable inputs for the asset or liability.

The following table summarizes the Fund's investments as of September 30, 2024, based on the inputs used to value them:

	Level 1	Level 2	Level 3	Total
Investments:				
Common Stocks	\$2,063,703,000	\$ _	\$ 	\$2,063,703,000
Money Market Fund	129,521,563	_	_	129,521,563
Total Investments	\$2,193,224,563	\$ _	\$ _	\$2,193,224,563

Refer to the Schedule of Investments for further disaggregation of investment categories.

Changes in valuation techniques may result in transfers into or out of assigned levels within the fair value hierarchy. There were no transfers into or out of Level 3 during the year, as compared to the security classifications from the prior year's annual report. See the Fund's Valuation Policy in Note 2a to the financial statements.

<sup>(b)</sup> The rate shown represents the 7-day annualized effective yield as of September 30, 2024.

## Summary of Fair Value Exposure at September 30, 2024

The Fund has adopted fair valuation accounting standards that establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs used to develop the measurements of fair value. The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 -Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity can access at the measurement date.

Level 2 — Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 — Unobservable inputs for the asset or liability.

The following table summarizes the Fund's investments as of September 30, 2024, based on the inputs used to value them:

	Level 1	Level 2	Level 3		Total
Investments:					
Common Stocks	\$1,627,871,130	\$ _	\$ -	_	\$1,627,871,130
Money Market Fund	38,167,862	_	-	_	38,167,862
Total Investments	\$1,666,038,992	\$ _	\$ -	_	\$1,666,038,992

Refer to the Schedule of Investments for further disaggregation of investment categories.

Changes in valuation techniques may result in transfers into or out of assigned levels within the fair value hierarchy. There were no transfers into or out of Level 3 during the year, as compared to the security classifications from the prior year's annual report. See the Fund's Valuation Policy in Note 2a to the financial statements.

## FMI International Fund

## Summary of Fair Value Exposure at September 30, 2024

The Fund has adopted fair valuation accounting standards that establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs used to develop the measurements of fair value. The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 -Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity can access at the measurement date.

Level 2 — Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 — Unobservable inputs for the asset or liability.

The following table summarizes the Fund's investments as of September 30, 2024, based on the inputs used to value them:

	Lev	el 1		Level 2	Level 3		Total
Assets:							
Investments:							
Common Stocks	\$1,363,	895,299	\$3,	510,653,553	\$ _	\$4	,874,548,852

Total Other Financial Instruments	\$	_	\$ (1	02,288,890)	\$ _	\$	(102,288,890)

\* The fair value of the Fund's investment represents the net unrealized appreciation (depreciation) as of September 30, 2024.

Refer to the Schedule of Investments for further disaggregation of investment categories.

Changes in valuation techniques may result in transfers into or out of assigned levels within the fair value hierarchy. There were no transfers into or out of Level 3 during the year, as compared to the security classifications from the prior year's annual report. See the Fund's Valuation Policy in Note 2a to the financial statements.

## Summary of Fair Value Exposure at September 30, 2024

The Fund has adopted fair valuation accounting standards that establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs used to develop the measurements of fair value. The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity can access at the measurement date.

Level 2 — Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 — Unobservable inputs for the asset or liability.

The following table summarizes the Fund's investments as of September 30, 2024, based on the inputs used to value them:

	Level 1	Level 2	Level 3		Total
Investments:					
Common Stocks	\$ 19,344,784	\$ 49,981,794	\$	_	\$ 69,326,578
Preferred Stock	_	1,807,470		_	1,807,470
Money Market Fund	1,346,264	_		_	1,346,264
Total Investments	\$ 20,691,048	\$ 51,789,264	\$	_	\$ 72,480,312

Refer to the Schedule of Investments for further disaggregation of investment categories.

Changes in valuation techniques may result in transfers into or out of assigned levels within the fair value hierarchy. There were no transfers into or out of Level 3 during the year, as compared to the security classifications from the prior year's annual report. See the Fund's Valuation Policy in Note 2a to the financial statements.

## (1) Organization

The following is a summary of significant accounting policies of the FMI Common Stock Fund, the FMI Large Cap Fund, the FMI International Fund, and the FMI International Fund II – Currency Unhedged (collectively, the "Funds" or, individually, a "Fund"). The FMI Common Stock Fund (the "Common Stock Fund"), the FMI Large Cap Fund (the "Large Cap Fund"), the FMI International Fund (the "International Fund"), and the FMI International Fund II – Currency Unhedged (the "International Currency Unhedged Fund") are each a series of FMI Funds, Inc. (the "Company"). The Company was incorporated under the laws of Maryland on September 5, 1996. The Common Stock Fund is the successor to the FMI Common Stock Fund, the sole series of FMI Common Stock Fund, Inc. (the "Predecessor Common Stock Fund"). The Predecessor Common Stock Fund commenced operations on December 18, 1981. The reorganization. As the accounting survivor of the reorganization, the Common Stock Fund adopted the Financial Statements of the Predecessor Common Stock Fund. The Predecessor Common Stock Fund was incorporated under the laws of Wisconsin on July 29, 1981. The Large Cap Fund commenced operations on December 31, 2001, and the International Fund commenced operations on December 31, 2001, and the International Fund commenced operations on December 31, 2019.

Effective October 31, 2016, the Common Stock Fund, Large Cap Fund, and International Fund offer two classes of shares (Investor and Institutional). The International Currency Unhedged Fund currently only offers Institutional Class shares. The Institutional Class has the same management fee as the Investor Class and does not have a shareholder servicing plan. A higher investment minimum is required for the Institutional Class than the Investor Class. Each class of shares has exclusive voting rights with respect to matters that affect just that class. Income, expenses (other than expenses attributable to a specific class) and realized and unrealized gains or losses on investments are allocated to each Class of shares based on its relative net assets. The Company's Board of Directors (the "Board") may elect to have certain expenses specific to the Investor Class shares or Institutional Class shares are attributable, but any expenses not specifically allocated to the Investor Class shares or Institutional Class shares of a Fund attributable to such expense) on the basis of the net asset value of that Class in relation to the net asset value of the applicable Fund.

The Funds are diversified, open-end management investment companies under the Investment Company Act of 1940 (the "1940 Act"), as amended. The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The Funds follow the investment company accounting and financial reporting guidance under Financial Accounting Standards Board ("FASB") Accounting Standards Codification "Financial Services – Investment Companies" Topic 946 ("ASC 946"). The assets and liabilities of each Fund in the Company are segregated, and a shareholder's interest is limited to the Fund in which the shareholder owns shares. The investment objective of the Common Stock Fund is to seek long-term capital appreciation by investing mainly in small- to medium capitalization value stocks. The investment objective of the Large Cap Fund is to seek long-term capital appreciation by investing mainly in a limited number of large capitalization value stocks.

The investment objective of the International Fund and International Currency Unhedged Fund is to seek capital appreciation by investing mainly in a limited number of large capitalization value stocks of non-U.S. companies.

## (2) Summary of Significant Accounting Policies and Other Information

(a) The Funds apply the provisions of the FASB Accounting Standards Codification "Fair Value Measurement" Topic 820 ("ASC 820"), which defines fair value as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

Each security is valued at the current day last sale price reported by the principal security exchange on which the issue is traded. Securities that are traded on the Nasdaq Markets are valued at the Nasdaq Official Closing Price, or if no sale is reported, the latest bid price. Securities that are traded over-the-counter, including U.S. Treasury securities are valued at the close price, if not close, then at the latest bid price. Money market funds are valued at the close price, if not securities for which market quotations are readily available are valued at the close price, if not

close, then at the most recent bid price. Foreign securities are valued on a basis of quotations from the primary market in which they are traded and are converted from the local currency into U.S. dollars using exchange rates as of the close of the New York Stock Exchange. For the International Fund and International Currency Unhedged Fund only, options purchased or written by each of the Funds are valued at the average of the most recent bid and ask prices. Securities for which quotations are not readily available are valued at fair value as determined by the investment adviser as the Board appointed valuation designee, in accordance with fair value methodologies established by the investment adviser. The fair value of a security is the amount which a Fund might reasonably expect to receive upon a current sale. The fair value of a security may differ from the last quoted price and a Fund may not be able to sell a security at the fair value. Market quotations may not be available, for example, if trading in particular securities was halted during the day and not resumed prior to the close of trading on the New York Stock Exchange. The foreign markets in which the International Fund and International Currency Unhedged Fund may invest are sometimes open on days when the New York Stock Exchange is not open, and the International Fund and International Currency Unhedged Fund do not calculate their net asset value. For securities that do not trade during New York Stock Exchange hours, fair value determinations are based on analyses of market movements after the close of those securities' primary markets, and may include reviews of developments in foreign markets, the performance of U.S. securities markets, and the performance of instruments trading in U.S. markets that represent foreign securities and baskets of foreign securities. The investment adviser utilizes a service provided by an independent third party to assist in fair valuation of certain securities for the International Fund and the International Currency Unhedged Fund. As of September 30, 2024, there were no securities that were internally fair valued.

In determining fair value, the Funds use various valuation approaches. ASC 820 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by generally requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Funds. Unobservable inputs reflect the Funds' assumptions about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The inputs or methodologies used for valuing securities are not necessarily an indication of the risks associated with investing in those securities. Over the counter derivatives such as forward currency contracts may be valued using quantitative models. These models may use pricing curves based on market inputs including current exchange rates or indices. These curves are combined with volatility factors to value the overall positions. The market inputs are generally significant and can be corroborated with observable market data and therefore are classified in level 2.

(b) Net realized gains and losses on sales of securities are computed on the identified cost basis. For financial reporting purposes, investment transactions are recorded on the trade date.

(c) Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts on the respective date of such transactions. The Company does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments. Reported net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Company's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the fair values of assets and liabilities, other than investments in securities at fiscal period end, resulting from changes in exchange rates.

(d) Dividend income is recorded on the ex-dividend date. Interest income is recorded on an accrual basis. The Funds record the amortization and accretion of premiums and discounts on securities purchased using the effective interest method. Withholding taxes on foreign dividends have been provided for in accordance with the Funds' understanding of the applicable country's tax rules and regulations.

(e) The International Fund may enter into forward currency contracts in order to hedge its exposure to changes in foreign currency rates on its foreign portfolio holdings or to hedge certain purchase and sale commitments denominated in foreign currencies. The International Currency Unhedged Fund normally does not seek to reduce currency risk by hedging its perceived foreign currency exposure back into the U.S. dollar and is generally exposed to currency fluctuations. However, the investment adviser reserves the right to temporarily hedge all or a portion of the International Currency Unhedged Fund's currency exposure. A forward currency contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated rate. These contracts are valued daily and the asset or liability therein represents unrealized gain or loss on the contracts as measured by the difference between the forward foreign exchange rates at the dates of entry into the contracts and the forward rates at the reporting date. The International Fund and International Currency Unhedged Fund have made an election under Section 988 of the Internal Revenue Code of 1986, as amended (the "Code"), which provides special rules for certain transactions in foreign currency other than the taxpayer's functional currency (i.e. unless certain special rules apply, currencies other than the U.S. dollar). Certain section 988 gains or losses will increase or decrease the amount of a Fund's investment company taxable income available to be distributed to shareholders as net capital gain, rather than increasing or decreasing the amount of a Fund's ordinary income.

The average quarterly notional amount is shown as an indicator of volume. The average quarterly notional amounts during the year ended September 30, 2024 were:

FMI International Fund	Average Notional Amount
Forward Currency Contracts - Long	\$47,620,575
Forward Currency Contracts - Short	3,369,275,084

These contracts are not subject to master netting agreements. For Non-Deliverable Forward Currency Contracts ("Contract"), the International Fund posts collateral, in the form of cash or cash equivalents, to a segregated account at the custodian when the Contract is in an unrealized loss position. When the Contract is in an unrealized gain position, the counterparty posts collateral to a segregated account at the custodian.

The fair value of the forward currency contracts as of September 30, 2024, is included in the following location on the Statements of Assets and Liabilities for the International Fund:

	Location	Fair Value of Asset Forward Currency Contracts	Location	Fair Value of Liability Forward Currency Contracts
Forward currency contracts	Unrealized appreciation on forward currency	\$1,420,026	Unrealized depreciation on forward currency	\$102,288,890
	contracts		contracts	

Realized and unrealized gains and losses on forward currency contracts entered into during the year ended September 30, 2024 are recorded in the following location on the Statements of Operations for the International Fund:

	Location	Realized Gain	Location	Net Change In Unrealized Appreciation (Depreciation)
Forward currency contracts	Net realized gain (loss) on	\$126,895,523	Net change in unrealized appreciation/	\$(290,154,610)
	forward currency		depreciation on	
	contracts		forward currency	
			contracts	

These instruments involve market risk, credit risk, or both kinds of risks, in excess of the amount recognized on the Statements of Assets and Liabilities for the International Fund. Risks arise from the possible inability of counterparties to meet the terms of their contracts and from movement in currency and securities values and interest rates.

(f) The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from these estimates.

(g) The Funds may own certain securities that are restricted. Restricted securities include Section 4(a)(2) commercial paper or securities issued in a private placement. The Funds did not hold any restricted securities as of September 30, 2024.

(h) No provision has been made for Federal income taxes since the Funds have elected to be taxed as "regulated investment companies." The Funds intend to distribute substantially all net investment company taxable income and net capital gains to their respective shareholders and otherwise comply with the provisions of the Code, applicable to regulated investment companies.

(i) The Funds have reviewed all open tax years and major jurisdictions, which include Federal and the state of Maryland for the Funds and concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. The Funds recognize interest and penalties, if any, related to unrecognized tax benefits on certain tax benefits on uncertain tax positions as income tax expense in the Statements of Operations. During the year ended September 30, 2024, the Funds did not incur any interest or penalties. Open tax years are those that are open for exam by taxing authorities and, as of September 30, 2024 open Federal tax years include the prior four fiscal tax years ended September 30, 2024. The Funds have no examinations in progress and are also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

(j) Net investment income and net realized gains, if any, are distributed to shareholders at least annually. Distributions to shareholders are recorded on the ex-dividend date.

(k) Common Company expenses are typically allocated evenly between the Funds of the Company, or by other equitable means.

(I) GAAP requires that permanent differences between income for financial reporting and tax purposes be reclassified in the capital accounts. These differences are caused primarily by differences in the treatment of certain components of income or realized capital gain for federal income tax purposes. Each Fund may utilize earnings and profits distributed to shareholders on redemption of shares as part of the dividends paid deduction. These reclassifications have no effect on net assets, results of operations or net asset value per share.

During the fiscal year ended September 30, 2024, the reclassifications were as follows:

Fund	Total Distributable Earnings/ (Accumulated Deficit)	Capital Stock		
Common Stock Fund	\$ (3,673,471)	\$ 3,673,471		
Large Cap Fund	\$(28,122,213)	\$ 28,122,213		
International Fund	\$ 17,581,505	\$(17,581,505)		
International Currency Unhedged Fund	\$ —	\$ —		

(m) Cash and cash equivalents, including collateral for forward currency contracts as presented on the Statements of Assets and Liabilities, include short-term, liquid investments with an original maturity of three months or less. These balances may exceed FDIC insured limits.

## (3) Investment Adviser and Advisory Agreement and Transactions With Related Parties

The Funds each have an investment advisory agreement with Fiduciary Management, Inc. ("FMI" or the "Adviser"), with whom certain officers and directors of the Funds are affiliated, to serve as investment adviser and manager.

Under the terms of the current advisory agreement for the International Currency Unhedged Fund, effective as of December 31, 2019, the Adviser is entitled to receive a fee. The fee is computed daily and payable at the end of each month. The following annual percentages of the International Currency Unhedged Fund's average daily net assets are used:

0.75% of the assets from \$0 - \$2.5 billion; 0.70% of the assets from \$2.5 - \$5.0 billion; 0.65% of the assets from \$5.0 - \$10.0 billion; and 0.60% of the assets over \$10.0 billion.

Under the terms of the current advisory agreements for the Common Stock Fund, Large Cap Fund and International Fund, effective as of January 1, 2019, the Adviser is entitled to receive a fee. The fee is computed daily and payable at the end of each month. The following annual percentages of each Fund's average daily net assets are used:

- Common Stock Fund: 0.85% of the assets from \$0 \$500 million; 0.80% of the assets from \$500 million \$1.0 billion; 0.75% of the assets over \$1.0 billion.
- Large Cap Fund: 0.65% of the assets from \$0 \$2.5 billion; 0.60% of the assets from \$2.5 \$5.0 billion; and 0.55% of the assets over \$5.0 billion.
- International Fund: 0.75% of the assets from \$0 \$2.5 billion; 0.70% of the assets from \$2.5 \$5.0 billion; 0.65% of the assets from \$5.0 \$10.0 billion; and 0.60% of the assets over \$10.0 billion.

The Funds are responsible for paying their proportionate share of the compensation, benefits and expenses of the Funds' Chief Compliance Officer. For administrative convenience, FMI initially makes these payments and is later reimbursed by the Funds.

Under the respective advisory agreement or operating expenses limitation agreements, FMI will reimburse the Funds for expenses (excluding federal, state and local taxes, interest, brokerage commissions and extraordinary items) as follows:

	Investor Class Expense Cap	Institutional Class Expense Cap
Common Stock Fund	1.30%	1.20%
Large Cap Fund	1.20%	1.10%
International Fund	1.75%	1.65%
International Currency Unhedged Fund	1.75%	1.65%

For the year ended September 30, 2024, there were no contractual or voluntary reimbursements required for the Common Stock Fund, Large Cap Fund or International Fund. For the year ended September 30, 2024, for the International Currency Unhedged Fund, there is no contractual reimbursement and the voluntary reimbursement is \$158,472. The voluntary 0.90% expense cap/reimbursement agreement for the International Currency Unhedged Fund will continue in effect until January 31, 2025, with successive renewal terms of one year unless terminated by the Adviser prior to any such renewal. The Adviser is entitled to recoup such amounts for a one-year period from the date the Adviser reduced its compensation and/or assumed expenses for the International Currency Unhedged Fund. The Adviser does not intend to recoup this \$158,472.

The Large Cap Fund, the International Fund and the International Currency Unhedged Fund have each entered into a Distribution Plan (the "Plan"), pursuant to Rule 12b-1 under the 1940 Act. Each Plan, if implemented, provides that the applicable Fund may incur certain costs which may not exceed the lesser of a monthly amount equal to 0.25% of such Fund's daily net assets or the actual distribution costs incurred during the year. Amounts payable under each Plan would be paid monthly for any activities or expenses primarily intended to result in the sale of shares of such Fund. For the year ended September 30, 2024, no such expenses were charged to the shareholders of any Fund as the Funds had not implemented the Plan.

Under the Funds' organizational documents, each director, officer, employee or other agent of any Fund (including the Adviser) is indemnified, to the extent permitted by the 1940 Act, against certain liabilities that may arise out of performance of their duties to the Funds. Additionally, in the normal course of business, the Funds enter into contracts that contain a variety of indemnification clauses. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against such Fund that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and believe the risk of loss to be remote.

At September 30, 2024, no person is deemed to "control" a Fund, as that term is defined in the 1940 Act, because the Funds do not know of any person who owns beneficially or through controlled companies more than 25% of a Fund's Investor Class and Institutional Class shares, on a combined basis, or who acknowledges the existence of control.

## (4) Shareholder Servicing Plan

The Funds have adopted a Shareholder Servicing Plan pursuant to which Investor Class shares (if available) may pay financial intermediaries for assets maintained in an omnibus account at an annual rate of up to 0.15% of the average daily net assets of such Fund, or an annual per account rate approved by the Board. The Board may also authorize the Funds to pay for shareholder services outside of the plan. Incurred shareholder servicing fees in excess of the limitations approved by the Board are borne by the Adviser.

For the year ended September 30, 2024, shareholder servicing fees incurred are disclosed on the Statements of Operations.

## (5) Loan Agreements

U.S. Bank, N.A. (the "Bank") has made available to the Company a \$600,000,000 umbrella credit facility, pursuant to the loan agreement (the "Agreement") effective May 24, 2024 for the FMI Funds, Inc. (consisting of Common Stock Fund, Large Cap Fund, International Fund and International Currency Unhedged Fund), for the purposes of having cash available to satisfy redemption requests and is subject to certain restrictions and covenants. For the period October 1, 2023 through May 23, 2024, the umbrella credit facility was \$600,000,000. Principal is due not more than 45 days after the date of the loan. Amounts under the credit facility bear interest at a rate per annum equal to the Bank's current prime rate minus one percent on the amount borrowed. Advances will be collateralized by securities owned by the borrowing Fund. The Agreement is subject to renewal on May 23, 2025. During the year ended September 30, 2024, the International Currency Unhedged Fund is the only Fund that borrowed against the loan agreement, at an interest rate of 7.50%, as follows:

		Outstand	ing as of			
	Average Borrowings	Septem 202		Interest Expense	Maximum Borrowing	Maximum Borrowing Date
International Currency Unhedged Fund	\$3,812,500 <sup>(1)</sup>	\$	_	\$1,589	\$7,338,000	5/22/2024

<sup>(1)</sup> Calculation of average borrowings excludes days with no borrowing activity.

## (6) Investment Transactions

For the year ended September 30, 2024, purchases and sales of investment securities (excluding short term investments) were as follows:

	Common Stock Fund	Large Cap Fund	International Fund	International Currency Unhedged Fund
Purchases	\$595,607,389	\$267,116,089	\$1,358,530,773	\$15,936,779
Sales	310,164,852	647,584,847	920,929,179	26,010,294

## (7) Income Tax Information

The following information for the Funds is presented on an income tax basis as of September 30, 2024:

	Cost of Investments	Gross Unrealized Appreciation <sup>(1)</sup>	Gross Urealized Depreciation <sup>(1)</sup>	Net Unrealized Appreciation (Depreciation) on Investments <sup>(1)</sup>
Common Stock Fund	\$1,511,382,884	\$ 701,415,269	\$ (19,573,590)	\$ 681,841,679
Large Cap Fund	1,098,095,488	629,738,931	(61,795,427)	567,943,504
International Fund	3,913,394,899	1,569,891,095	(420,134,039)	1,149,757,056
International Currency Unhedged Fund	57,687,209	18,281,278	(3,484,410)	14,796,868

<sup>(1)</sup> Represents amounts of investments in securities, forward currency contracts and foreign currency translations.

The difference between the cost amounts for financial statement and federal income tax purposes is due primarily to timing differences in recognizing certain gains and losses on security transactions. The International Fund is the only Fund with temporary mark to market differences. The components of accumulated earnings (deficit) on a tax-basis are as follows:

	Net Unrealized Appreciation (Depreciation)	Undistributed Ordinary Income	Undistributed Long-Term Capital Gains	Other Accumulated (Deficit)	Total Distributable Earnings/ (Accumulated Deficit)
Common Stock Fund	\$ 681,841,679	\$ 3,961,426	\$ 28,519,686	\$ —	\$714,322,791
Large Cap Fund	567,943,504	12,037,327	143,832,474	_	723,813,305
International Fund	1,149,757,056	_	_	(370,410,505)	779,346,551
International Currency Unhedged Fund	14,796,868	1,360,982	_	(1,814,115)	14,343,735

The International Currency Unhedged Fund utilized \$68,327 of prior year short-term capital loss carryovers. The International Fund and International Currency Unhedged Fund utilized \$62,805,745 and \$2,479,977, respectively, of prior year long-term capital loss carryovers.

The other accumulated deficit above includes \$11,297,078 of late-year losses for the International Fund only. For the International Fund and International Currency Unhedged Fund all capital loss carryovers may be used indefinitely to offset future gains as follows:

	Short-term Capital Loss Carryovers	Long-term Capital Loss Carryovers	Total Capital Loss Carryovers
International Fund	\$84,808,090	\$274,305,337	\$359,113,427
International Currency Unhedged Fund	253,072	1,561,043	1,814,115

The tax components of dividends paid during the years ended September 30, 2024 and 2023 are as follows:

		September 30, 20	24		September 30, 202	23
	Ordinary Income Distributions <sup>(1)</sup>	Long-Term Capital Gains Distributions	Total Distributions	Ordinary Income Distributions <sup>(1)</sup>	Long-Term Capital Gains Distributions	Total Distributions
Common Stock Fund	\$26,529,010	\$ 22,721,869	\$ 49,250,879	\$ 3,566,548	\$ 64,447,102	\$ 68,013,650
Large Cap Fund	15,429,867	146,383,109	161,182,976	13,332,676	324,039,427	337,372,103
International Fund	_	_	_	447,852,464	_	447,852,464
International Currency						
Unhedged Fund	1,165,736	—	1,165,736	830,255	—	830,255

<sup>(1)</sup> For federal income tax purposes, distributions on short-term capital gains are treated as ordinary income distributions.

## (8) Fund Share Transactions

	Year Ended Se	ptember 30, 2024	Year Ended September 30, 2023		
Common Stock Fund	Shares	Amount	Shares	Amount	
Sales					
Investor Class	7,650,224	\$ 263,481,760	6,228,283	\$ 192,408,466

## (9) Subsequent Events

On September 20, 2024, the Board approved the year-end distributions for the Funds. Cash dividends in the aggregate amounts equal to each of the Fund's net Investment Income and short-term capital gains, if any, which will be treated as ordinary income, and long-term capital gains, to be payable on December 20, 2024, to outstanding shares of record at the close of business on December 19, 2024. Management has evaluated related events and transactions that occurred subsequent to September 30, 2024, through the date of issuance of the Funds' financial statements and has determined there were no other subsequent events or transactions.

## FMI Funds, Inc. Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors of FMI Funds, Inc.

## Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities, including the schedule of forward currency contracts for FMI International Fund and the schedules of investments, of FMI Funds, Inc. comprising the funds listed below (the "Funds") as of September 30, 2024, the related statements of operations, the statements of changes in net assets, and the financial highlights for each of the periods indicated below, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds as of September 30, 2024, the results of their operations, the changes in net assets, and the financial highlights for each of the periods indicated below in conformity with accounting principles generally accepted in the United States of America.

Fund Name	Statements of Operations	Statements of Changes in Net Assets	Financial Highlights
FMI Common Stock Fund, FMI Large Cap Fund, and FMI International Fund	For the year ended 2024	For the years ended 2024 and 2023	For the years ended 2024, 2023, 2022, 2021, and 2020
FMI International Fund II – Currency Unhedged	For the year ended 2024	For the years ended 2024 and 2023	For the years ended 2024, 2023, 2022, 2021 and for the period from December 31, 2019 (commencement of operations) through September 30, 2020

## **Basis for Opinion**

These financial statements are the responsibility of the Funds' management. Our responsibility is to express an opinion on the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of September 30, 2024, by correspondence with the custodian and brokers. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the Funds' auditor since 2016.
